

To: Faculty Senate
From: Missouri S&T Campus Curricula Committee
Re: Meeting on October 9, 2013

Paul Worsey was introduced as a newly elected CCC member, representing Graduate Council.

Jennifer Thorpe announced her resignation from S&T. Until a new Associate Registrar is in place, Deanne Jackson will represent the Registrar's Office at CCC meetings.

With the implementation of course renumbering, Degree Audit Reports are being programmed to accommodate the inclusion of both 3-digit and 4-digit course numbers. The Registrar's Office will request departmental input as needed. Any oddities not solved by the programming can be corrected by submitting a "Substitutions & Waivers" form to the Registrar's Office.

For the information of the Faculty Senate, the following EC forms have been submitted by the University departments for an experimental course that will be offered in the near future.

File #4004 – Explosives Engineering 401, Advanced Blast Vibration Analysis and Prediction, effective Spring 2014.

File #4007 – Computer Science 401, Applied Graph Theory for Computer Science, effective Spring 2014.

For full details of the above listed curriculum forms, see the October 9, 2013 meeting minutes of the Campus Curricula Committee at: <http://registrar.mst.edu/currcom/cccmeetings/>.

Daniel Tauritz, Chair
Missouri S&T Campus Curricula Committee
