

Memorandum To: Faculty Senate

From: Daniel Tauritz, 2013-2014 Campus Curricula Committee Chair

Date: September 29, 2014

RE: 2013-14 Annual Activity Report of Campus Curricula Committee

During the 2013-14 academic year, the Campus Curricula Committee held ten meetings to consider and make recommendations on campus curricular matters. Minutes of these meetings are available at: <http://registrar.mst.edu/currcom/cccm meetings.html>

The committee evaluated and made recommendations to the Faculty Senate on approximately 55 Experimental Course (EC) forms, 198 Course Change (CC) forms, 92 Degree Change (DC) forms, and 1 Name Change (NC) form.

In addition to the above listed curricular evaluations, the committee – in a Herculean effort – processed during this academic year’s implementation phase of the Course Renumbering Initiative, each department’s course renumbering crosswalk tables. In a separate effort, the committee provided a detailed response to RP&A in regard the experiential learning referral dated 12/10/2013, which gave guidance to the AF&S committee in their drafting of the campus’ experiential learning policy. Finally, the committee streamlined and clarified the campus’ experimental course policy by successfully making a motion to FS for new wording which allows experimental courses to be offered unlimited times during the five year period following their approval and specifying that a course has to be offered experimentally at least two times during the preceding five year period before it can be made permanent.
