Academic Council Report

The Honorary Degrees Committee met November 18, 2015 to review nominated candidates. One new nomination was submitted and the prior nomination pool was re-examined. The committee updated the list by removing three individuals and adding one new individual. The current list now consists of eight individuals. These eight individuals were formally submitted to the Chancellor for consideration during 2015-2016.

The committee requested updated information for those individuals that the departments would like to have re-evaluated for the coming year. Also, the committee welcomes new nominations.

Regards.
