

Memo To: Faculty Senate

From: Allan Pringle, Student Academic Affairs Committee Chair

Subject: Annual Report of Activities, 2014-2015

August 28, 2015

The only referral to the Student Academic Affairs Committee for 2014-2015 concerned the Robotics Competition Team constitution.

The Robotics Competition Team requested that the Student Affairs Committee (SAC) approve amendments to their constitution, and submit the amended constitution to the Faculty Senate for approval.

It was noted that on January 18, 2007, the Faculty Senate approved the following motion: “Recognizing the critical role that students, faculty and the administration play in this process, we further recommend that a separate Chancellor appointed committee of students; faculty and administration assume the student organization constitution review process.”

The SAC was unable to find any information about the existence of a committee to review student organization constitutions. Therefore, the SAC voted to approve the amendments to the Robotics Competition Team constitution. The amended constitution was approved by the Faculty Senate on April 23, 2015.
