

Memorandum To: Faculty Senate

From: Daniel Tauritz, Campus Curricula Committee Chair

Date: July 19, 2013

RE: 2012-13 Annual Activity Report of Campus Curricula Committee

During the 2012-13 academic year, the Campus Curricula Committee held eleven meetings to consider and make recommendations on campus curricular matters. Minutes of these meetings are available at: <http://registrar.mst.edu/currcom/cccm meetings.html>

The committee evaluated and made recommendations to the Faculty Senate on approximately 57 Experimental Course (EC) forms, 213 Course Change (CC) forms, and 49 Degree Change (DC) forms.

In addition to these routine curricular evaluations, the committee discussed and provided input to the Campus Course Renumbering Committee on the Course Renumbering Initiative and made a successful motion to Faculty Senate to approve the version as revised per the committee's suggestions.

Finally, the committee improved its processes by, effective this academic year, providing scans of approved curricula forms showing all edits on its website and listing curricula submission deadlines on its website as well.
