

**To: Faculty Senate**  
**From: Missouri S&T Campus Curricula Committee**  
**Date: 17 July 2018**  
**Re: 2017-2018 Annual Activity Report of Campus Curricula Committee**

During the 2017-2018 academic year, the Campus Curricula Committee held 9 meetings to consider and make recommendations on campus curricular matters. Minutes of these meetings are available at

<http://registrar.mst.edu/currcom/ccmeetings/> .

The committee evaluated and made recommendations to the Faculty Senate on 42 Experimental Course (EC) forms, 166 Course Change (CS) forms, 47 Degree Change (DC) forms and no Name Change (NC) forms.

In addition to the above listed curricular evaluations, the committee discussed and voted to approve a policy that a course number cannot be reused for another course within a ten-year period from which it was deactivated. Upon the ten-year period, the primary department must justify the reactivation of a course number before it was approved. This motions was passed by Faculty Senate. The committee also formed an ad-hoc committee to create a “minor creation policy” that addressed several pending issues. The policy was approved by the committee. This policy was discussed, slightly modified with edits, and passed by Faculty Senate. The committee also endorsed changes made to the revised humanities and social science – Engineering Degree Requirements – that was approved by Faculty Senate in the prior academic year and updated in the Catalog.
