Dear Colleagues,

Here is some info from Beth, which I will incorporate into the minutes.
Also, here's a draft agenda:

Approval of April minutes
Computer Security – Video winners and call for brainstorming for the Computer Security Awareness Month
Email Issues
Research Computing

Yours truly,

Don

Dr. Wunsch,

Attached is a file intended to serve as guide for discussion. You will see in the file my attempt to address specific issues that were documented in the email replies about the email archive/retention topic. We can certainly broaden the discussion beyond those topics if need be.

See you tomorrow.

Beth

Dear Beth,

That will be fine, thanks!

Yours truly,

Don Wunsch

Dr. Wunsch,

I won't have a power point presentation but I am working to document responses to select issues from the email replies that have been sent thus far. Hopefully the introduction in my document will clarify some of the issues.

I hope to get a copy to you yet today (although it might be later tonight before I get it finished).

Thanks,
Beth

Dear Beth,

Thanks for planning to come.

If you'd like to show powerpoint, please let me know so I can be prepared.

Usually we don't but we can if needed.

Also, if you have either powerpoint or handouts please send them to me in advance if at all possible. It will help me be timely with minutes.

People here are concerned both about Freedom of Information Act email requests and Email Consolidation plans, but the comments I'm receiving show more concerns about the latter. Anything you would share about either topic would be helpful.

Thanks!

Yours truly,

Don

Dear Beth and Gary,

The May ITCC meeting, next Wednesday at 4-5:30 PM, is usually the final one of the year. I'd like to invite either or both of you to attend and discuss anything you'd like to bring before the committee. It will be in room 236 of the ECE Department building on my campus. (I tried to get the Telepresence room but it was booked.)

One relevant topic we'd like to cover is the recent proliferation of concerns about electronic privacy, particularly Freedom of Information Act requests for faculty emails. How this trades off vs. FERPA requirements is an interesting topic, and there are other aspects as well. Please see the attached minutes for our discussion of this topic from the last meeting.

I believe either of you could add a lot to our discussion on this and various other topics, so this invitation is deliberately open-ended.

Thanks!

Yours truly,

Don

Dear ITCC Colleagues,

The May meeting is coming fast upon us!
Please send any suggested agenda items if you wish. Margaret and I will meet Monday to discuss it but anything you send before then will also be considered.

One thing we will do is the usual approval of the minutes. They were sent out just after the previous meeting are attached again for your convenience.

The ITCC meeting will be next Wednesday, May 11, 4-5:30, in room 236 EECH.
Thanks!

Yours truly,

Don
