Dear ITCC Members,

This is a reminder that the ITCC Open Forum is this Friday afternoon, March 11, immediately after the Teaching and Learning Technology Conference, which I also encourage you to attend. We will probably be able to start the ITCC meeting about 1 PM and have the room till 5 or so.

The Open Forum is our only opportunity this year to have more time to explore issues in detail, so please make every effort to attend or send a proxy representative from your department. Also, any Faculty, Staff member or student is invited, particularly to this meeting.

Here is a tentative agenda:

Approve Minutes from Previous Meeting (attached)
eLearning Strategic Plan
Listserv Changes
Research Computing Update
IT Project Management Update
Getting Proactive about Computer Security Responsibilities – A Case Study (please see attached)
Data Management Plan Update
The Computer Security Video Competition
New Business
Adjourn

Let me know if you have any suggested additions or corrections.

See you Friday!

Yours truly,

Don
