

- Eduroam
  - Due to infrastructure needs, we cannot get this up during this academic year
  - UM has a test environment we can tie off of when we get closer.
  - Target date to be an Eduroam member is likely going to be Fall 2013.
- Office 365
  - Faculty/Staff will not be able to use Office 365 or the Skydrive for business purposes until policy is decided on.
  - CIO and or ISO will provide more details when we know anything
- FIM Project Update (Forefront Identity Manager)
  - Will be replacing our account provision/DE provision environment June/July 2013
  - It is required for student Office 365 and for Lync
  - Getting all business rules the same for all campuses was time consuming.
- Security Awareness Training
  - Scope of topics to be covered by training
    - Phishing
    - Managing Identity
    - FBI Workshop Videos (faculty only)
    - Policies/Procedures
    - Open to any suggestions via email to keep it moving.
  - Options available
    - purchased
    - built-in house
    - In either case, we should be able to have something in place for the Fall semester.
  - Mandatory – should be from high level: Fac Senate/Provost
    - Possibly have a renewal quiz that then focuses on weak areas.
  - Measuring effectiveness. Will need to identify proper metrics
- Mass Notification System Replacement
  - Current system extremely limited
  - Replacement to offer better communications ability
  - Will address some of the communication deficiencies of the Great Spear Fishing Incident of 2012
- Password Policy
  - Current Minimum Strength requirements
  - Reset every 6 months
    - Implemented in phases to avoid overload on Helpdesk/Walk-in
  - Will send proposal to sub-committee prior to April 1
- Email Issues
  - Digital/ID Certificates available to all Faculty and key staff.
  - Whitelisting
    - Postini User settings
    - Postini System settings
    - UM System settings
